CALL ACCEPTED.—Rev. M. M. Marshall, Episcopal Church in Warrenton.

ORDERLY.-We have heard that it has been conceded that Goldsboro' has been designated by the military authorities as the most rebellious place in the State.-We are glad to be able to say, without the fear of successful contradiction, that no town of its size has, since the close of the war, been so uniformly orderly. This Confederacy, are the most reliable supporters of the old Government to be found not the men who sneak off to secluded corners and recount past grievances, or reveal plots that originated in their own brainsthey are too busy, too high-minded, to engage in any such business. Time will show who are the men to be trusted. Goldsboro' Star.

Directors' Meeting .- The Directors of the Williamston & Tarboro' Railroad met in this place on last Thursday, and proceeded to the election of officers for the year, with the following result: General J. R. Stubbs, President, C. B. Hassell, Treasurer, and J. Edwin Moore, Esq., Secretary. We understand the Board are most enthusiastic in the cause, and no means will be the work to a speedy completion.

In an enterprise of this kind everything depends upon the manner in which it is begun, and judging from the spirit displayed by the gentlemen having it in charge, we augur well for its success.

The President was directed to have the preliminary survey immediately made, which being done and the route agreed on, we may expect to see the first real and substantial signs of commencement. Tarboro' Southerner.

The Tarboro' Bridge.—We are glad to learn that the re-building of this Bridge was let out last Saturday, to Messrs. Rogers

and Shirly, the successful bidders. The contract required the Bridge to be completed by the 15th of October next, and we feel sure, from the well known enterprise and energy of the contractors, that

the work will be executed in the most substantial and durable manner. Tarboro' Southerner.

Radieoad Matters.—It is understood, we hear, that the Governor's appointments to the Directorship of the A. & N. C. R. R., have been made and that there was but a single change from the Board appointed last year. A meeting of the stockholders is to take place in this city on the 27th instant, at which time Col. The timber is now being hauled, and the work will be pushed forward to completion with all possible dispatch. A noticeable fact in regard to this medicine is, that the orders now received come from physicians, who have tested it in their practice, and are highly pleased with the results.—Wilson Carolinian.
